

Serpentine Cove

The Trials and Tribulations of Serpentine Cove

How to Turn a Superb Wetland Into a Building Site

Serpentine River opposite the lake being formed by developers.

Destruction of samphire. Where is the buffer Zone?

Open Section of Drain for Run-off Water of Subdivision.

Serpentine Cove looking back to entrance and the trees surrounding the runoff water reservoir.
Destroyed samphire flat on left. July '95.

Serpentine River looking at the development site. July '95

Load testing sand, heaps of clearing in foreground - destruction of samphire. Jul.'95.

SERPENTINE COVE

Further Devastation

Shallow lake with Barragup Bridge in centre background. Developer Wishes to deepen Lake for boating and cut a channel to the Serpentine River. Wading Birds Would Miss Out Yet Again!

The heap of vegetation in the lake is from clearing Around the lake. The developer appears to have overridden the 30 metre buffer.
